

Central Intelligence Agency

Washington, D. C. 20505

10 April 1981

NOTE FOR: DDCI

FROM: DCI

This is one of the concerns that seem to be floating about at the FBI. I had a good talk with Bill Webster on Thursday and he has no problems, but he asked my permission for his people to continue talking with our people. I encouraged him to get in touch with you if he had any problem in my absence.

William J. Casey
